## PICK UP

Your chicken will be included with your CSA pick up the third Friday of each month.

## WHY PASTURED CHICKENS?

*Flavor!* If you haven't tried it before, we'd love to have you sample our eggs and chicken, but I'll warn you: you may never want to go back to the grocery store! We also find that it has more nutrition, and is better for the animals, soil, and farmers. To learn more check out: [eatwild.com](http://eatwild.com)

### What do they eat?

Our principle is that nutrition starts in the soil and we are what we eat. Or in this case, we are what we eat, eats!

Our chickens are in the pasture to eat fresh greens & insects. They also have free access to feed that contains organic, local corn, oats, wheat, barley, peas, alfalfa, vita A, D, & E.

Our goals:

Regenerative land and animals

Nutritious and flavorful foods

Passion for farming, food, and ecology

Community around local food and farming
